Floor Graphic Instructions

These instructions explain how to use the included supplies to install your floor graphic. It's also recommended you ask a friend for help.
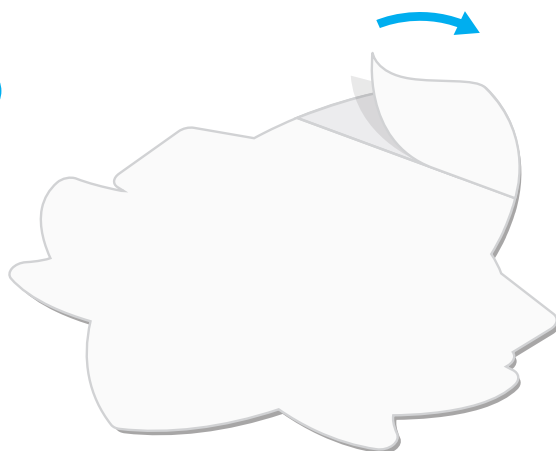

Included supplies:

Squeegee

Tape strips (x 10)

1

Unroll your floor graphic and discard the outer white paper.

2

Flip the floor graphic over and place face down on a clean surface.

3

You'll notice a back slit line toward the top of your floor graphic. Peel off the top section of the backing and discard.

4 With the adhesive exposed at the top, flip the floor graphic over and stick it to a clean floor. Adjust it until it's aligned properly.

Apply a couple of strips of tape to the top of the floor graphic to secure its position.

5 Reach under the floor graphic and begin peeling the rest of the backing starting from the top down.

With the other hand, smooth and apply the graphic to the surface using your hand or the supplied squeegee, working from the top down.

6 Remove and discard the tape strips and celebrate your awesomeness!
